

## Corporate Governance

In 2005, NASDAQ OMX Copenhagen adopted a set of recommendations on corporate governance. The recommendations were most recently updated in 2017. The recommendations are considered to be in compliance with the OECD's current principles of corporate governance.

According to section 107 b of the Danish Financial Statements Act and the stock exchange rules, in connection with the presentation of the annual report, ALK is required to disclose

the extent to which the company complies with the recommendations, based on the "comply or explain" principle.

The table below provides an account of the extent to which and the way in which ALK complies with the recommendations. In those instances where ALK has chosen a different practice, the rationale for this is explained.

Recommendation	The company complies	The company complies partially	The company does not comply	The explanation for complying partially / not complying with the recommendation
